National Enabling Better Aged and Community Care for Forgotten Australians Forum

The National Aged and Community Care Roundtable for Forgotten Australians was brought together in 2019 following a highly successful forum hosted by Wattle Place in Sydney in June 2019.

The National Forum and the National Aged and Community Care for Forgotten Australian Roundtable brought together Forgotten Australians and other Care Leavers along with specialist services, aged and community care providers, and researchers. This group is all committed to improving the access, appropriateness and quality of support and care for Forgotten Australians who are ageing or ageing prematurely.

The Enabling Better and Community Care for Forgotten Australians National Forum was identified as an opportunity to collaborate with the International Care Experienced History Month. This opportunity provides people with lived experience and service providers to access national and international research and resources.
